

The University of Bonn's Transdisciplinary Research Area Innovation and Technology for Sustainable Futures (TRA 6) invites applications for the position of

**a Student Assistant/ Studentische Hilfskraft (WHF; m/f/d)**

about 10 hours per week, limited for 6 months at first

The University of Bonn contributes to the emerging field of sustainability science through its Transdisciplinary Research Area "Innovation and Technology for Sustainable Futures". TRA 6 stands for research into institutional, science, and technology-based innovations. The TRA prioritizes the strategic challenges related to demographic change, poverty, nutrition and health, environmental and climate change, and unsustainable resources use (e.g., soil, water, biodiversity). Our strength is the combination of sound basic, applied, and interdisciplinary research capacities across faculties that are important for making progress towards the corresponding Sustainable Development Goals (SDG). More information: [https://www.uni-bonn.de/research/research-profile/innovation-and-technology-for-sustainable-futures?set\\_language=en](https://www.uni-bonn.de/research/research-profile/innovation-and-technology-for-sustainable-futures?set_language=en)

Expected tasks of the student assistants are to assist the TRA-Management in the following activities:

- Development of a TRA 6 publication database
- Various research tasks
- Administrative and organizational support

Requirements

- Level of studies: early Master Student, preferably in agriculture, economics, development or related disciplines
- Excellent speaking and writing skills in English and German
- Experience in the creation and further development of databases
- Programming skills, for example for automated updates of databases desirable
- Ability to work independently, efficiently and target oriented
- Experience in agricultural and (rural) development research, technology transfer and development is of advantage

The Rheinische Friedrich-Wilhelms-University of Bonn is an equal opportunity employer and welcomes applications from female candidates and minorities.

Interested candidates should submit a letter of interest, their CV and relevant certificates latest by 17 November 2020 via email and as one PDF document (less than 5 MB) to: Hanna Zimmermann, [tra6@uni-bonn.de](mailto:tra6@uni-bonn.de), Transdisciplinary Research Area Sustainable Futures, Poppelsdorfer Allee 47, 53115 Bonn, Germany. The receipt of all complete applications will be confirmed; however, only short-listed candidates will be informed.
