

Bonn, 31 July 2023

Job Advertisement: Research Assistant

(part-time; 9 hours per week; 3 - 6 months)

The “One Health and Urban Transformation” project at the Center for Development Research (ZEF) at the University of Bonn is looking for **one research assistant (studentische Hilfskraft (SHK) / wissenschaftliche Hilfskraft (WHK))** for a period of **3 months** (possibly extendable +3 months) for the next possible date

Application Deadline: 31 August 2023

Your tasks are:

- Scientific research and data preparation in the field of Planetary Health:
 - Managing and analysing quantitative and qualitative data
 - Supporting the principal investigator in drafting manuscripts for publication in scientific journals
- Communication with stakeholders & related organizational tasks

We offer:

- Stimulating insights in scientific research on Planetary Health and climate crisis resilience
- You will work in a small, friendly, and international team of interdisciplinary researchers
- You will have a work space at ZEF in Bonn
- We encourage critical thinking and offer room for your ideas and impulses

Your profile:

- Advanced English proficiency, both written and spoken
- You are a student in Public Health, (Health) Geography, Social Science, Environmental Science or related fields
- Experience in either applying a GIS (such as QGIS) **or** in cleaning & analysing survey data using SPSS, STATA or R
- Experience in transcribing qualitative interviews is a plus

Depending on your qualifications, this position may be staffed remotely.

Please apply with a letter of motivation (max. one-page DIN A4) and your CV, combine the documents into one PDF file, name the file *Application_Name_FirstName* and submit your application to Jaqueline Hildebrandt (she/her) (hildebrandt@uni-bonn.de). For all questions regarding the position advertised please get in touch with Ms Hildebrandt.
