

Job Announcement

The Center for Development Research (ZEF) is an institute of the University of Bonn, Germany. ZEF's researchers aim to find science-based solutions to development-related issues. ZEF's research departments on Economic and Technological Change, Political and Cultural Change, and Ecology and Natural Resources Management conduct inter and transdisciplinary research in, for and with emerging economies and on global issues with its collaborating research partners around the world. ZEF educates doctoral students from all over the world in its Doctoral Studies Program. More information is available at www.zef.de.

The ProciNut project is a research and capacity building project in Myanmar and Madagascar, financed by the German Ministry of Agriculture, which aims at better exploiting the nutritional potential of edible insects. It tests different processing techniques of local insect species and expands commercial small-scale farm activities and processing to produce safe and nutritious end products that are able to close seasonal gaps, increase nutritional security of households and improve the income situation of poor women. Key features of the project are participatory action research in Myanmar and Madagascar, gender as a cross-cutting issue as well as transdisciplinarity. ZEF offers a stipend for a:

Doctoral Researcher (m/f) in Value Chain Analysis

Main responsibilities will be:

- Participate in ex-ante analysis together with the interdisciplinary team and use the results to design own research;
- Conduct quantitative and qualitative research on value chains of edible insects - an economic, institutional and governance analysis with focus on value addition, employment, gender and market development;
- Contribute to the design and analysis of a quantitative sex-disaggregated survey on the socio-economic context, value chain, and consumption behavior of households/ farming families in Myanmar and Madagascar;
- Contribute to policy advocacy strategies and publications for the practice (handbook etc.) and to participatory evaluations;
- Contribute to farmer training courses and to publications for the extension practice (training materials on insect rearing, handbook and guidelines for policy makers/extension agents);
- Publish peer-reviewed articles and participate in international conferences;
- Foster joint learning within the multidisciplinary project team;
- Contribute to the other project work packages.

Education, qualifications and experience:

The candidate must have:

- A good MA degree preferably in agricultural economics, development economics, geography economics, business economics or related disciplines;
- Strong skills for both broad systemic analysis of value chain dynamics as well as in depth analysis of specific issues;
- Experience in multi stakeholder processes with agricultural and rural development issues in developing countries;
- Familiarity with qualitative and quantitative research methods, proficient knowledge of Microsoft Office Tools and statistical data analysis (STATA, SPSS);
- Team player, excellent communication skills;

- Interest and demonstrated ability to work in a multidisciplinary and multi-cultural environment;
- Interest in agriculture and no cultural barrier to human consumption of insects/ entomophagy
- Excellent proficiency in oral and written English and ideally in French;
- Willingness to travel extensively to Myanmar and Madagascar (including several weeks at a time);
- Ability to work independently, efficiently and target oriented.

Other elements which may be an advantage for the applicant:

- Work experience in Africa and/ or Asia
- Experience in academic writing, first publications in national/international journals, book chapters, reports;
- First exposure to participatory (action) research, agricultural research or diffusion of innovations e.g. in extension systems;
- Knowledge of food and nutrition security issues;
- Experience with social media

We offer a three year stipend of 1000 Euro (lump sum per month). In addition all travel and research expenses will be covered. There is the possibility to join the ZEF doctoral program.

The position is expected to start July 2018. Applications (cover letter incl. motivation, CV, certificates, achievements in English, one writing sample, contact details of two reference persons) should be sent by e-mail in one pdf document (less than 10 MB) to:

Dr. Jochen Dürr and Dr. Sarah Nischalke
 Senior Researchers
 Center for Development Research, University of Bonn
 53113 Bonn, Germany
 E-mail: jduerr@uni-bonn.de, snischal@uni-bonn.de

Application deadline is May 28th or until position is filled. The reference of the position should be clearly marked in the subject line of the e-mail message. Only short listed candidates will be contacted. Expected interview time will be in the first week of June 2018.

In keeping with the University's policy regarding gender equity, female applicants are particularly encouraged. Disabled people with identical qualifications will be favored.
